One page Biographical Sketch

Bruce W. Small is a practicing dentist with a busy private practice in Lawrenceville, New Jersey concentrating on clinical excellence in restorative dentistry. Dr. Small is an associate professor at the University of Medicine and Dentistry of New Jersey from which he has received the prestigious distinguished alumni award. He is the director of an elective/selective for senior dental students on cast and direct gold at UMDNJ dental school.

He has been granted the honor of a fellowship in both the International and American College of Dentists. He is a master of the Academy of General Dentistry and is on its national Council of Dental Education. He has been the editor of the Restorative Dentistry column in *General Dentistry*, the

journal of the Academy of General Dentistry for over ten years and continues in this position today. He is on the board of directors of the L.D. Pankey Foundation in Key Biscayne Florida and is a teaching associate there. He is a member of many dental academies including The American Academy of Restorative Dentistry, Academy of Operative Dentistry (where he is a senior councilor), The Academy of Gold Foil Operators, and the Academy of R.V. Tucker Study Clubs of which he is president elect. He is the mentor of two cast gold study clubs and continues as a member of one cast and one direct gold study club.

During the past 20 years he has given numerous presentations to dental schools, laboratories, study clubs, local, state, regional, and national and international dental meetings about his experiences with clinical dentistry and has published over 100 articles in refereed and non-refereed journals. Using scientific research as well as over 30 years of clinical experience, his teaching goal is to help others develop a rational and evidenced based approach to restorative dentistry particularly when using new dental materials. He is one of the very few speakers who can address the indications and clinical technique for esthetic materials as well as cast and direct gold.

Curriculum Vitae

Personal Information

Home address: 119 Mine Road, Pennington, New Jersey 08534
 Home phone: 609-466-4147

Videotapes

- 1996 AGD Videodent series on occlusion
- 1997 AGD Videodent series with Dr. Warren Johnson on cast and direct gold

Lecturing and teaching

University of Medicine and Dentistry

- Associate Professor of Restorative Dentistry 1992-present
- Dept of Restorative Dentistry
- Director: Year Long Restorative/Esthetic Continuum for graduate dentists 2007
- Director: Senior student elective/selective cast and direct gold 2002-present
- Lecturer – restorative dentistry

Study Clubs

- Mentor Tucker Study Club #61 2006 – present
- Mentor Tucker study club #62 2007-present
- Member Tucker Study Club # 32 1994 - present
- Member New Jersey Gold Foil Study Club 1996 - present
- Member Pankey Faculty Northeast Study Club 2004 – 2007

All above study clubs meet between 6 and 8 times pre year

Dr. Small has presented hundreds of postgraduate continuing education programs since 1985. These have been divided between all day lectures, hands-on participation courses and include two and three day protocol courses. The following is a partial list of sponsors of presentations and year.

International Meetings

| | |
|---|------------|
| Academy of R.V. Tucker Study Clubs | |
| Princeton, NJ To Metal or not to Metal | 2004 |
| Halifax Nova Scotia – Optical Impressions | 2007 |
| Ontario Dental Association (Toronto, Canada) | 1995, 2003 |
| Germany – Dusseldorf – Academy of RV Tucker Cast Gold Study Clubs | |
| The Excellence of Cast Gold Restorations | 1999 |
| L.D. Pankey Institute | |
| Cast Gold for the Japanese Continuum | 2004 |
| Panama Dental Association annual session | 1998 |
| St Bart’s Dental Association | |
| 5 day lecture on restorative dentistry | 2004 |
| The Tucker Symposium at the University of British Columbia, Vancouver | 2003, 2005 |
| CE Cruises – weeklong cruise to Puerto Rico, Dominican Republic, St Thomas, and Nassau | 2002 |
| Quebec Dental Association (Montreal, Canada) | 2003 |

National and regional meetings

| | |
|---|---|

- First Place Award

Research

Developed protocol, supervised, and administered clinical investigation of the use of carbamide peroxide 10% and its efficacy as a bleaching agent for teeth. This included data supplied from 88 dentists in eleven states for 324 patients. The report has been published in General Dentistry 42:142-146 1994.
